PROFILE

Looking forward to working with a well-known organization that provides a chance to enhance my skills and seeking for an entry-level position in an IT industry where I can utilize my skills and knowledge to learn and grow within the company.

PROJECTS

HYDROPONICS -The Smart Farming
PESITM - 2022-23
Led end-to-end implementation of an innovative hydroponics project, leveraging Dreamweaver and MySQL, to create a farmer-focused website, enabling direct customer engagement, bypassing intermediaries, and revolutionizing the agricultural industry.

Jewellery Management Database System
PESITM - 2021-22
Worked in a team of three to design and develop a desktop application using NetBeans and MySQL that helps the users check the various jewellery shop branches and stocks, and admins can perform various operations.

E-commerce Website
PESITM - 2021-22
Built an e-commerce website using HTML, CSS, JavaScript, and Bootstrap that responds to queries by the user.

INTERNSHIP
